## Objective

---

Passionate and driven Full-Stack Web Developer with hands-on experience in both front-end and back-end technologies. Committed to building user-centric, scalable applications that solve real-world problems. Eager to contribute to dynamic teams, continuously grow as a developer, and drive the success of innovative projects through strong problem-solving and development skills.

## Projects

---

**AbhishekSphere** | *HTML, CSS, JavaScript* |

**March 2025**

- Developed a personal portfolio to showcase projects, skills, and achievements with an interactive gallery for technical skills and projects.

**DivyaDarshan** | *React, Django, Tailwind CSS*

**November 2024**

- DivyaDarshan is a web-based platform designed for online darshan slot booking and queue tracking at Vitthal Mandir. It offers a smooth user experience with real-time slot updates and responsive design. The project was built using React.js for the frontend and Django for the backend.
- DivyaDarshan simplifies the pilgrimage experience by offering online slot booking and live queue tracking for Vitthal Mandir. The platform ensures a hassle-free visit through a mobile-friendly interface and real-time updates. It was built to improve accessibility and convenience for all devotees.
